

1979.2 Metafora

design Iella & Massimo Vignelli, 1979

The shapes of the Euclidean, Cubo, Cilindro, Sfera and Pyramid geometry, in four different marbles (white Carrara marble, black Marquinia marble, Travertino and Rasotica) form the base of the table completed by a large transparent glass plate. The four elements are independent and can be positioned freely, without the table losing its identity indifferently to the position of the elements that compose it, all however necessary to give it stability. There are four versions according to the chosen material.

1979.2 metafora

family:	METAFORA	Structure Materials:	rasotica carrara's white marble marquinia's black marble travertine
Typology:	furnishings
